

Dear Technical Reference Panel

It has a really negative affect on our family, we were only weeks away from buying our 1st home in Perth.,then last year with next to no notice we were forced to end our dream .,and left with no work .,all within a matter off weeks .,still now we are uncertain and nervous off the outcome .,as a shearer at the [redacted] feedlot .its going to be very hard mental challenge on our family this year,..especially those months April may June.,were there is no work ,where we were once our most busiest time of year gone just like that. Please give us certainty,so I can tell my children yes dad has got work today.
