NATIONAL PARK

PERMIT APPLICATION FORM

Commercial land based tours in Kakadu National Park

Kakadu National Park is a Commonwealth reserve established under the *Environment Protection and Biodiversity Conservation Act 1999* (the EPBC Act) to manage the environment of the region for the benefit of all people, present and future. The Director of National Parks uses a permit system to help regulate some activities. Permits may be issued subject to conditions that help to identify, protect, conserve and manage biodiversity, heritage and other values of national parks. This is a system through which industry and the public can share in the responsibilities of managing and protecting the park. Permits enable park managers and the Aboriginal traditional owners of Kakadu National Park to:

- maximise park visitor safety
- encourage responsible behaviour in the park
- ensure that commercial and other park users are accountable for their actions
- separate potentially conflicting activities
- manage impacts on high-use and sensitive areas
- monitor activities that could degrade biodiversity, heritage and other park values
- collect data for planning and management.

Individuals and other commercial entities (e.g. companies and associations) wishing to conduct commercial activities in the park, including commercial tours, need to have a permit issued by the Director.* The Director may issue a permit only if:

- the activity is consistent with:
 - the management plan for the park, or (if there is no management plan) the purpose for which the park is declared
 - any lease of indigenous people's land in the park
- the activity is not likely to:
 - endanger public safety
 - unduly damage the park
 - unduly interfere with the preservation or conservation of biodiversity or heritage in the park
 - unduly interfere with the protection of other features or facilities in the park
 - interfere with the privacy of a cultural event held in the reserve by the traditional owners of Aboriginal land in the park
 - interfere with the continuing cultural use of the park by the traditional owners of Aboriginal land in the park
 - interfere with the privacy of other persons in the park
- the activity benefits the public or persons using the park
- if all the permit holder's tour guides who will lead tours in the park have successfully completed the Kakadu Knowledge for Tour Guides course.

In making a decision about whether to issue a permit, the Director may take into account whether a person to whom the permit is to be issued has, in the last 10 years, been convicted of or is subjected to proceedings for an environmental offence.

* **Note** Commercial activities in the park that require access to restricted areas, or exclusive use of areas, require a licence rather than a permit. See the Parks Australia website for more information.

Duration of Permit

Tour operators can apply for permits that have a duration of either one year or three years.

Three-year permits are available to tourism operators accredited under the Australian Tourism Accreditation Program. A copy of the accreditation certificate must accompany this application, and updates must be provided to the Permits Officer annually.

One-year permits do not require tour operators to hold tourism accreditation, however accreditation may be required in the future.

Tourism Accreditation

Accreditation aims to assist every tourism business to improve the way it operates. It provides consumers and the industry with an assurance that a tourism operator is committed to quality business practices, sustainability and professionalism in all aspects of the enterprise.

The following accreditation programs currently meet the Director of National Parks requirements under TAAL:

- Ecotourism EcoCertification Program (Ecotourism Australia)
- Advanced EcoCertification Program (Ecotourism Australia)
- Nature Tourism EcoCertification Program (Ecotourism Australia)
- Respecting Our Culture (Ecotourism Australia)
- ATAP (Australian Tourism Accreditation Program)

For assistance with and further information on tourism accreditation please refer to the Australian Tourism Accreditation Program qualitytourismaustralia.com or Ecotourism Australia ecotourism.org.au.

For operators in the Northern Territory (NT), Tourism NT's Business Development team can help you identify the most suitable accreditation program for your business and help you achieve and maintain your tourism accreditation: tourismnt.com.au.

Kakadu Knowledge for Tour Guide Course

It is compulsory for all tour guides and drivers interpreting Kakadu National Park to have successfully completed the Kakadu Knowledge for Tour Guides course. This program provides entry-level training covering all the things a tour guide should know when working in Kakadu National Park – including key areas of visitor safety, understanding the park's natural and cultural values and history, minimising environmental impact and legal compliance.

Completion of this course is mandatory for all persons leading a tour in Kakadu National Park and interpreting its values while they are in Kakadu National Park. This applies whether you visit Kakadu National Park only once, or more frequently. Permittees who allow unaccredited guides to lead tours in Kakadu National Park will be in breach of their permit conditions.

Tour guides can study and complete the assessments whenever and wherever they want to. The flexible nature of this program lets the individual decide what is most appropriate for them. This is self-paced learning and all the tools needed to complete the course are supplied at the time of enrolment.

The program is offered through Charles Darwin University. The following webpage provides detailed information on how to enrol and also addresses frequently asked questions about the program www.cdu.edu.au/cdu-vet/kakadu-knowledge-training. Additional information can be found at: www.environment.gov.au/national-parks/tour-guide-training-faq.

To enrol in the program, contact:

Tourism, Hospitality, Sport and Recreation (Top End)
Charles Darwin University NT 0871
Phone: 08 8946 7954
Email: kakadu-online@cdu.edu.au

Since the course became compulsory, we've been educating people about the program and encouraging tour operators to get on board. The course was released in April 2008 and the tourism industry has embraced the program, with many operators now incorporating the course into their staff training and induction programs.

We are continuing to work with Charles Darwin University to track which guides have completed the course and which are yet to do so. **Only tour operators with accredited guides may be issued permits.** This acknowledges the many operators who have supported their guides to complete the training and ensures the quality of tours in Kakadu National Park continues to increase.

 - a) the permittee sells any business to which the permit relates to another person or group, or for any other reason ceases to conduct the permitted activity; or

The permittee must not, without the approval of the Director, use directly in the conduct of the activity to which this permit relates (eg driver or tour guide) the services of any person who has within the previous 10 years been convicted of an offence against the Act or the Regulations prior to the grant of the permit.

Note: The Director may keep a register of persons who have been convicted of such an offence or who have been the subject of a request by the Director for a permittee to cease using their services within the park.

14. If any of the permittee's staff contravene these permit conditions, the Director may:

- a) notify the permittee of the contravention; and
- b) direct the permittee to cease using the services of that person within the park for a specified time, and the permittee must forthwith comply with that request.

Note: Suitable templates for risk management systems are available from Parks Australia. They represent the minimum acceptable standard for a risk management system. Permittees are encouraged to develop more detailed risk management systems.

18. The permittee is responsible for the safety, well being and behaviour of the permittee's staff and clients, and must take all reasonably practicable steps to ensure that no person is exposed to risks to their health or safety whilst in the park.

19. If the permittee or any of the permittee's staff or clients is killed, injured, becomes ill, goes missing, or is involved in a dangerous incident while in the park, a member of park staff must be notified as soon as possible and the permittee and the permittee's clients must comply with any requests or directions from a member of park staff in relation to the safety of that person or any other person.

Note: In this condition "dangerous incident" means an incident that exposes a person to a serious risk to their health or safety.

20. The permittee must ensure that its supervision of the permittee's clients is reasonable in the circumstances of the permittee's clients' differing levels of fitness, experience and abilities.

21. The permittee must carry, and must ensure that each of the permittee's clients carries, sufficient potable water for the

conduct of the permitted activity.

Note: The Director recommends that, in hot weather, people carry and drink one litre of water for every hour they will be active.

22. The permittee will make good any damage to the park, to the extent that the damage was caused or contributed to by the conduct of the permitted activity or a breach of the permit conditions by the permittee.

Commercial Activity Conditions
