IMPORT RISK ANALYSIS: IMPORTATION OF DAIRY PRODUCTS FOR HUMAN CONSUMPTION ADOPTION OF REVISED CONDITIONS

This Animal Quarantine Policy Memorandum (AQPM) advises adoption of revised conditions for the importation of dairy products for human consumption.

AQPM 1999/76 of 12 November 1999 provided finalised quarantine requirements for the importation of dairy products for human consumption. Following announcement of the final conditions, there was a 30 day period during which stakeholders had the opportunity to appeal against the process under which the import risk analysis was conducted.

No appeals were received from stakeholders and as a result the conditions attached to AQPM 1999/76 will be adopted today, 20 December 1999.

Thank you for your assistance with the development of this import policy. Please do not hesitate to contact this office should you require any further information on this matter.
