PLANT QUARANTINE POLICY MEMORANDUM 2000/05

IMPORT RISK ANALYSIS FOR THE IMPORTATION OF FRESH LONGANS AND LYCHEES FROM THE REPUBLIC OF CHINA

This Plant Quarantine Policy Memorandum (PQPM) provides stakeholders with information regarding the Import Risk Analysis (IRA) on the importation of fresh longans and lychees from the People's Republic of China.

In our Plant Quarantine Policy Memorandum (PQPM) number 2000/01 of 13 March 2000, we advised you that the Australian Quarantine and Inspection Service (AQIS) had received an import request for fresh longans and lychees from the People's Republic of China. Stakeholders were invited to comment on the priority to be accorded to this and other requests listed in the PQPM and provide any additional information.

The purpose of this letter is to notify stakeholders that an import risk analysis (IRA) has been initiated for this request as a matter of priority and to invite you to comment on the proposed approach to the risk analysis.

AQIS considers that the risk analysis should be undertaken using the routine IRA process outlined in the *AQIS Import Risk Analysis Process Handbook*. This is based on consideration that this proposal is technically less complex and does not require assessment of significantly greater or different risks than those AQIS has previously examined.

We estimate that the risk analysis process will take approximately twelve months from commencement to completion using the routine process. If there are no unanticipated delays, we would expect the draft IRA paper to be released later this year.

You are invited to comment on the type of process to be undertaken for this IRA. Your comments will be taken into consideration by AQIS in finalising its position on the type of process to be followed. AQIS will accept written submissions on this issue until the close of business on Tuesday 30 May 2000. Responses should be forwarded to:

Subject to the *Freedom of Information Act 1982* and the *Privacy Act 1988*, all submissions received with respect to the review will be publicly available and be listed or referred to in papers or reports prepared in the review. If a request for anonymity does not accompany a submission, the respondent will be taken to have consented to the disclosure of his or her identity for the purposes of the *Privacy Act*. The contents of a submission will not be treated as confidential unless they are marked 'confidential' and they are capable of being classified as such in accordance with the *Freedom of Information Act*. The AQIS IRA process, as documented in the *AQIS Import Risk Analysis Process Handbook*, does not provide for extensions to the formal consultation stages.

If you wish to suggest inclusion of an additional stakeholder in our distribution list for this IRA, or if you wish to be removed from the distribution list, please provide details to the Import Risk Analysis Secretariat at the above address. Information on all IRAs being conducted by the Plant Quarantine Policy Branch is available on the AQIS Homepage at <http://www.aqis.gov.au/docs/plpolicy/plhome1.htm>.

We look forward to receiving your response.
