

Dear Stakeholder

IMPORT RISK ANALYSIS - FRESH CITRUS FRUIT FROM ITALY

In our letter of 9 November 1998 we advised you that the Australian Quarantine and Inspection Service (AQIS) will conduct an import risk analysis (IRA) on the importation of fresh citrus fruit (sweet orange, lemon, mandarin and clementine) from Italy, with particular reference to Sicily.

AQIS will conduct the risk analysis using the IRA process outlined in the *AQIS Import Risk Analysis Process Handbook*, which has been distributed to stakeholders. The purpose of this letter is to provide you with an opportunity to comment on the proposed approach to the risk analysis.

The process

AQIS considers that the risk analysis on the importation of fresh citrus fruit from Italy, with particular reference to Sicily, should be undertaken using the routine IRA process outlined in the *IRA Handbook*.

Timeframe for completing the risk analysis

We estimate that the risk analysis will take approximately twelve months to complete using the routine process. If there are no unanticipated delays, we would expect the draft IRA paper to be released in July 1999. Stakeholders will be kept informed if there are any significant delays or variations to the proposed timeframe.

Request for comments

You are invited to comment on the proposal to conduct the IRA using the routine process. Your comments will be taken into consideration by AQIS in finalising its position on the type of process to be followed. AQIS will accept written submissions on this issue until the close of business on Monday 8 March 1999. Responses should be forwarded to:
